

State Document Processing Times for Corporations

The table below shows the standard processing time and the rush express processing time. Please note that all times stated represent the average turnaround time and can vary throughout the year. Typically, state offices slow down from the beginning of December until the beginning of March due to the large amount of incorporations that are filed. Document filing agencies observe all federal and state holidays which can add to the time it takes for your document to be processed.

Business days are Monday through Friday and exclude weekends and holidays. For faster service, please purchase the *FedEx – To and From the State* at check out time. Otherwise, your document will be mailed to and from the state filing agency via the US Postal service which can add a significant amount of time to the filing process.
